Projects

Harmony - The Music Player
This music player is web-based application that allows users to stream and listen to their favorite songs and music playlists from anywhere, at any time. It provides a user-friendly interface that is easy to navigate and supports multiple audio formats.

--Project Link--

Online Code-Editor
This online code editor is a web-based application that provides a user-friendly interface for writing and editing code in various programming languages. It allows users to write and test code in real-time, without the need to install any software on their computer.
