Projects

Leads Tracker Chrome Extension

This chrome extension, using which we can save meaningful tabs/URLs and can open them whenever needed. It's similar to the bookmark feature in chrome.

--See The Code--

Tech Stack: JavaScript, HTML, CSS, Local Storage

Color Picker WebApp

I made this WebApp whose background color will change randomly as you click on the "Click Me" button, and you can pick any random color you like for your project.

--Project Link--

Tech Stack: JavaScript, HTML, CSS

Blackjack Game WebApp

I made this Blackjack game just to spend few hours playing it. It was also one of my first projects.

--Project Link--

Tech Stack: JavaScript, HTML, CSS

My Portfolio

Not much to say here! This one just gave me a good excuse to spend a weekend practicing React and CSS, & I definitely suggest to check it out (link is at the top) as **Reading Resume is Boring**.

--Project Link--

Tech Stack: React, EmailJS, HTML, CSS

Education

2018-2020
12th Class (80%)
